Opposition No.:

NOTICE OF OPPOSITION

Commissioner for Trademarks
P.O. Box 1451
Alexandria, Virginia 22313-1415

TO THE TRADEMARK TRIAL AND APPEAL BOARD

Opposer, Ho Quang Tri Private Enterprise ("Opposer"), a Vietnamese company with its headquarters at No 196 Tinh Lo 8 Road, Ha Bo Hamlet, Tai Van Ward, Tran De District, Soc Trang Province, Vietnam, hereby brings this Opposition against I&T Enterprise, Inc. ("Applicant") for its Application Serial No. 90009521 seeking registration of the mark ST25 (the "Application" or "Applied-for Mark").

Opposer believes it has been or will be damaged by registration of the Applied-for Mark and therefore opposes the same.

As grounds for this Opposition, Opposer alleges:

THE APPLICATION AT ISSUE

1. On information and belief, Applicant is a California corporation having an address of 1635 S San Gabriel BL, San Gabriel, California, United States, 91776.

2. On June 18, 2020, Applicant filed an application for the mark ST25, which was assigned Serial No. 90009521.

3. The Application for ST25 was filed as an intent-to-use application and was subsequently amended on January 5, 2021, to allege use.

4. At the time of publication, the Application covered the following good, "rice" in U.S. Class 46, which is the subject to this Notice of Opposition (the "Applied-for Good").

5. The Application was published for opposition on May 4, 2021.

6. Opposer filed extensions of time to oppose on June 1, 2021, and July 6, 2021.

7. This Notice of Opposition is timely filed.

THE APPLIED-FOR MARK

8. Mr. Ho Quang Cua, Opposer's consultant, is the creator and owner of ST25, a species of rice that originated in Vietnam.

9. The Applied-for Mark, ST25, is a scientific varietal name for the rice grain, which is currently protected in Vietnam under the Plant Variety Protection Certificate No. 21.VN.2020 issued by the Department of Crop Production on April 6, 2020. *See Exhibit A.*

10. The Minister of Agriculture and Rural Development for the Socialist Republic of Vietnam has also recognized the Applied-for Mark, ST25, as a fragrant rice variety. *See Exhibit B.*

11. The Deputy Head of the Intellectual Property Office of Vietnam has publicly stated that ST25 cannot be trademarked because it is a generic plant variety.

12. ST25 is a varietal name for a species of rice and is not registrable, including pursuant to TMEP §1202.12.

13. Numerous third party websites refer to ST25 as a variety of rice. *See Group Exhibit C.*

14. The Rice Trader officially approved Opposer to use its well-known award "World's Best Rice" logo for the ST25 rice. In its statement, The Rice Trader also confirmed that in 2019, at the 11th annual TRT World Rice Conference held November 11th-13th in Manila, Philippines, Vietnam won – for the first time in history – this award with the ST25 rice. *See Exhibit D.*

15. Opposer has a strong interest in preserving the integrity of the rice variety ST25 and protecting consumers.

16. Opposer will be damaged by the registration of ST25 in that the registration could impair Opposer's rights to the use of generic and descriptive terminology. A registration of ST25 would allow Applicant to argue that Applicant has at least a *prima facie* exclusive right to prevent others, including Opposer, from using ST25, and would allow Applicant to attempt to assert exclusive rights in this generic and descriptive term against other users, including Opposer, of the same or similar generic and descriptive terms. Applicant's registration of ST25 would limit Opposer's and others' freedom to use this generic and descriptive term by purporting to assert proprietary rights in it and to remove it from the public domain.

17. Accordingly, Opposer has a real interest in preventing this harm from occurring and has standing to oppose the Application.

Count I - Genericness

18. The allegations of paragraphs 1-17 are incorporated as if fully stated herein.

19. The Applied-for Mark is the varietal rice name of the goods identified in the Application, and is therefore generic.

20. The Applied-for Mark is a commonly used term by the consuming public to refer to a variety of rice.

21. The Applied-for Mark is used in a generic sense in various articles and informational websites that are readily available to consumers in the United States. For example, Wikipedia categorizes ST25 as a "rice variety." *See* Exhibit E.

22. On information and belief, the relevant purchasing public in the United States perceives the Applied-for Mark as indicating a variety of rice. The relevant purchasing public understands the Applied-for Mark primarily as the common or class name for the goods identified in the Application.

23. The Applied-for Mark is generic and cannot function as a trademark under Sections 1, 2, and 45 of the Lanham Act, 15 U.S.C. §§ 1051, 1052, and 1127.

Count II - Descriptiveness

24. The allegations of paragraphs 1-23 are incorporated as if fully stated herein.

25. The Applied-for Mark is commonly understood to refer to the goods identified in the Application, namely, rice.

26. The Applied-for Mark, ST25, when used in the context of the identified goods, immediately connotes a characteristic of the goods – that is, ST25 is a variety of rice.

27. The Applied-for Mark is merely descriptive under Section 2(e)(1) of the Lanham Act, 15 U.S.C. § 1052(e)(1).

WHEREFORE, Opposer respectfully requests that the Board refuse the Application assigned Serial No. 90009521, that no registration be issued to Applicant, and that this Opposition be sustained in favor of Opposer.

The Office is authorized to debit Deposit Account No. 501649 for the fee due for filing this Notice of Opposition and any other associated fees.

Be careful

Reviewed in the United States on July 9, 2021

This one isn't authentic Vietnamese ST25 rice because the Vietnamese farmer, Ho Quang Cua, who makes the authentic rice and won the world prize by The Rice Trader in Manila didn't apply for the brand name in the US yet, so don't waste your money.

The real McCoy?

Reviewed in the United States on May 31, 2021

I bought a 15 lb bag at an Asian grocery store. Cooked it. I tasted good but I question the authenticity. The bag is different than on Amazon.

According to Asia.com:

"However, selling ST25 rice on the market is quite rare. In Ho Chi Minh City, there is a shop specializing in selling products of Ho Quang Tri Private Enterprise at 12 Rach Bung Binh Street (District 3), in which rice of ST line such as ST20, ST24 and ST25 rice (very few, mainly for introductions), the selling price is about VND 26,000/ kg. This unit also represented Ho Quang Tri Private Enterprise to put all kinds of ST rice for sale at the kind green market in Ho Chi Minh City, which takes place every Saturday and Sunday."

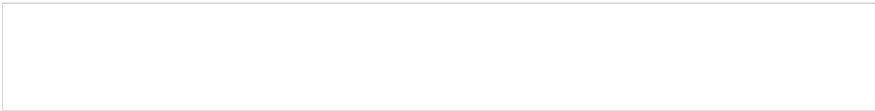

So enjoy the rice because it tastes good but the authenticity is iffy.

For Immediate Release:

First Vietnamese Enterprise got official approval from The Rice Trader to use its copyright “World’s Best Rice” award logo for marketing and trading purpose!

The Rice Trader in this press release announces and congratulates **Ho Quang Tri Private Enterprise** as the first Vietnamese company for its respect and honesty toward the use of our international well-known award “**World’s Best Rice**” trademark after fulfilling all the necessary agreements. This exclusive award has been organized annually in the framework of the World Rice Conference for twelve years continuously, by The Rice Trader as the sole proprietor and creator of this contest. This Worlds’ Best Rice contest was developed by our founder, as a passion project to reward the world players for their significant contribution to the world rice industry. Those responsible for development of ST25 are part of the group that deserve recognition.

In 2019, at the 11th annual TRT World Rice Conference held November 11th-13th in Manila, Philippines, Vietnam won – for the first time in history – this award with the **ST25 rice**. We recognized the country’s success among over 600 members of the industry, including speakers, sponsors, and delegates, at the largest event of the global rice industry and trade. This event is indeed an international recognition of the prestige of the national rice industry that Vietnam won for its development of rice varieties and quality for years of hard work. Vietnam also came in second place at the 2020 contest.

Secondly, The Rice Trader would declare its official warning to other Vietnamese companies for proper respect when using our copyright “World’s Best Rice” logo in their rice packages found in the markets. This is an illegal use of the intellectual property rights and regulations of the “World’s Best Rice” logo. Players entering the contest acknowledge they have no right to use without permission and that the winning country is set to comply with the contest’s commitments. Without proper resolution to this action, those company names will be publicized for the effects they had on the overall industries direction. Additionally, our organization takes this so seriously that the country could even lose its right to participate in this contest in the following years. It is our firm belief that those who create value should be rewarded and this has always been our intention in the running this contest.

The Rice Trader.

West Bengal rice varieties

There are possibly up to 82,700 varieties of rice extant in India, and of those more than 5000 were found in West Bengal. However, only 150 of them are commonly grown. Many are grown organically to compete with more modern cultivars. The Agricultural Training Centre of West Bengal exists to conserve and promote the use of folk rice varieties, including many listed below.^[25]
