

Pharmaceutical Registration In Vietnam: Strategic Partnership Between KENFOX And AKAKABE

The registration of pharmaceuticals (or drug registration) in Vietnam is a complex procedure that demands strict adherence to the standards set by the Drug Administration of Vietnam under the Ministry of Health. For foreign enterprises aiming to bring pharmaceutical products to the Vietnamese market, submitting an application for the registration of pharmaceutical circulation at the Drug Administration of Vietnam is an obligatory step. Moreover, practical experience reveals that, within the pharmaceutical business landscape, challenges such as acts of infringement, disputes over intellectual property, and unpredictable market impacts are inevitable.
